Recommendation Letter Advice and Instructions for Submission of Letters

- You must submit your Letter of Recommendation electronically as an email attachment to goldbeja@lafayette.edu orexternalscholarships@lafayette.edu. The letter should be signed and on letterhead. It should be attached ONLY as a WORD document.

- Letters of recommendation must adhere to the following formatting instructions:
  - Up to 2 pages
  - 1" margins on all sides
  - Any font no smaller than 12-point

- IMPT: Only Dean Goldberg will be able to upload your letter to the student’s official Goldwater application portal. This is a new procedure dictated by the Goldwater Foundation. As in the past, your letter is confidential; that is, the applicant will not be able to see your letter unless you show it to him/her.

- Goldwater selection committee readers expect detailed letters that convey the following:
  - Letters should concentrate on the applicant’s motivation and potential for a research career. (It is OK for the applicant to be a ‘nerd’; the applicant’s success in your course is assumed).
    - Letters should indicate how the applicant demonstrates that s/he is able to “make meaning from science” – e.g., from learning effective benchmark practices to a commitment to and passion for STEM practices.
    - Applicants who have not engaged in research at the time of application may demonstrate intellectual curiosity in other ways, including discussions with you on research or theory.
    - Applicants may also demonstrate their abilities and potential by meeting significant responsibilities, involvement in STEM student organizations, relevant employment or internships, etc.
  - Letters must speak to/about the applicant’s research and be consistent with the applicant’s claims throughout his/her application.
  - Letters that compare applicant to others who have gone on to outstanding PhD programs/research careers can be beneficial.
