Applications must be emailed as electronic attachments using the “submit materials” tab on our website (https://externalscholarships.lafayette.edu) by December 4th, 2018.

Letters of Recommendation must be submitted, as electronic documents, to Dean Goldberg at goldbeja@lafayette.edu or externalscholarships@lafayette.edu by December 7th, 2018.

The Carnegie Endowment for International Peace (CEIP) is a unique global network of policy research centers in Russia, China, Europe, the Middle East, and the US. CEIP’s mission is to advance the cause of peace through analysis and development of fresh policy ideas, and direct engagement and collaboration with decision-makers in government, business, and civil society. Together, CEIP’s centers bring the inestimable benefit of multiple national viewpoints to bilateral, regional and global issues. As one of the world’s leading think tanks specializing in international affairs, the Endowment conducts programs of research, discussion, publication and education.

The Junior Fellows Program is designed to provide a substantive work experience for those who have a serious career interest in the area of international affairs and/or policy formulation. Applicants from all disciplines are welcome! There are no citizenship or GPA requirements.

Approximately 12-14 Junior Fellows will be hired to work at CEIP in Washington, DC on a full-time basis for a period of one year. Lafayette College is permitted to nominate 2 candidates from the Class of 2018 and/or 2019 for CEIP’s consideration.

ASSIGNMENTS:
Junior Fellows provide research assistance to scholars working on CEIP projects in the areas listed below.

Junior Fellows have the opportunity to conduct research for (and possibly co-author) books, articles op-eds, papers, and reports, participate in meetings with high-level officials, contribute to congressional testimony, and organize briefings attended by scholars, activists, journalists, and government officials.

DURATION:
Junior Fellows are hired for a period of approximately one year. All fellowships begin on August 1st, 2019.

SALARY, BENEFITS & HOUSING:
The monthly salary is $3,291.67 (equivalent to $39,500 annually) subject to federal, state and local taxes.

A generous benefits package is provided, including medical, dental & life insurance as well as vacation leave.

Junior Fellows are responsible for their own housing arrangements.

QUALIFICATIONS:
• Applicants are accepted only from graduating seniors or from 2018 graduates who have not already started graduate studies.
• There are no citizenship, GPA, or major/minor requirements!
• Applicants should have completed a significant amount of coursework related to their discipline of interest.
• Language and other skills may be required or recommended for certain assignments (these are listed in parentheses after the essay topics associated with each program).

APPLICATION PROCESS:
To Apply:

1. Electronically submit the following to externalscholarships@lafayette.edu using the “Submit Materials” tab on our website (https://externalscholarships.lafayette.edu/submit-materials/) by December 4, 2018:
(a) **CEIP Application Form** found at: https://externalscholarships.lafayette.edu/scholarships/ceip-junior-fellow-program/

(b) **A signed and completed campus Nomination Permission and Waiver Form** found at: https://externalscholarships.lafayette.edu/scholarships/apply-through-lafayette/.

(c) **Personal Essay**: 1 page or less, double-spaced) on why you would like to become a Junior Fellow. The personal essay should add to what is apparent in the resume/CV. It must be well written.

(d) **Resume/CV**: 1 to 2 pages (preferred) with details esp. of research and relevant work experience.

(e) **Names of 2 recommenders** who have agreed to write you **strong, highly supportive** letters of recommendation. The LOR may come from **any** appropriate individual. The LOR must speak to your research, critical thinking, communicative and teamwork skills, knowledge of the topic/issues as well as how you can contribute to the Junior Fellows Program.

**IMPT:** LORs must be strong, and highly supportive. They must speak to your research, critical thinking, communicative & teamwork skills, knowledge of the topic/issues and how you can contribute to the Junior Fellows Program.

Letters of recommendation (on letterhead and signed) should be submitted to Dean Goldberg by **December 7, 2018.** LORs should be submitted as electronic attachments (via email) or as hard copies. They should be addressed to the James C. Gaither Junior Fellows Program. LORs must not be sent directly to CEIP!

(f) **Transcripts** from all institutions attended (may be sent electronically or as hard copy)

(g) **Program Topic Essay**: Up to 3 pages, double-spaced, on one of the following topics (see below); your name must be included as a header on each page.

The topic essay is the most critical component of your application. The essay is intended to test your skills in analysis, logic, and written expression. The essay is an analytical “thought piece”, not a research paper. It is like the op-ed pieces you might find in the NYT, Economist, Washington Post, WSJ, or other relevant quality policy or international affairs publication.

Footnotes are not required; if you absolutely feel the need to include footnotes/references, keep them to the minimum. What is important is that the essay be clearly articulated and well argued.

To get a better sense of what CEIP is looking for, you may want to “do research” on the CEIP website for models of short essays written by CEIP fellows. Sample essays from applicants are provided on Lafayette’s website at https://externalscholarships.lafayette.edu/scholarships/ceip-junior-fellow-program/

Select a topic (A-K) related to your *primary research program* interests. (Please note: CEIP may ultimately select an applicant for a program outside of his/her designated primary interest or have the Jr Fellow assigned to more than one program.)

The Programs/Essay Topics: Select and respond to just one

**A. Democracy, Conflict, & Governance Program:** As democracy in the United States and Europe is experiencing more serious problems, the question of the relationship between those problems and the issues facing democracy in the rest of the world is gaining attention. Are the problems that democracy is facing in the United States and Europe largely similar to or fundamentally different from those plaguing democracy in other regions such as Africa, Asia, Latin America, and the Middle East?

**B. US Foreign Policy and Diplomacy:** The Obama Administration looked to re-set relations with Russia, recast America’s role in the Middle East, and rebalance its posture toward the Asia-Pacific. The Trump Administration has pursued its own policy pivots in each area. Compare and contrast the Obama
Administration’s aims and policy record with Trump Administration’s aims and policy record in one of these policy areas, and draw out lessons from the experience of both administrations that ought to inform American diplomacy in the years ahead. (The Junior Fellow will support Ambassador William J. Burns, President of the Carnegie Endowment, on research and writing that seeks to shape American diplomacy. Applicants should have coursework in US foreign policy, broad-gauged regional interests, an interest in policy analysis and formulation, and superb writing skills.)

C. **Nuclear Policy Program**: Which state without nuclear weapons do you believe is at most risk of acquiring them?

D. **Technology & International Affairs Program and Cyber Policy Initiative (Please respond to just ONE of the two following questions)**: (1) What technology issue will have the greatest impact on international stability in the coming decade, and why? OR (2) What factors explain why the cybersecurity environment has continued to deteriorate in recent years?

E. **Middle East Program**: The Middle East region is going through a huge, agonizing and protracted transformation characterized by dwindling oil revenues, rising populations, failing governance structures and government services, rising extremism and sectarianism, and high unemployment. The current situation has enabled regional powers to intervene in each other’s affairs as well as non-state actors such as the self-proclaimed Islamic State to emerge and spread new toxic ideologies. What do you see as one of the most difficult threats facing the region today and the underlying drivers of turmoil? Discuss the impact this has had on two countries in the region and strategies that will help move these countries toward a better future. (Strong reading fluency & the ability to perform academic as well as on-line research in Arabic essential; strong background in Middle East politics and/or history is a huge plus.)

F. **South Asia Program (Respond to just ONE of the two following questions)**: (1) What factors explain why, in many democracies, poor people continue to receive poor public services, despite accounting for a large share of the population? OR (2) Under what conditions is a military response an effective solution to transnational terrorism? (The ability to perform quantitative data manipulation is required. A strong academic background in international relations theory, political theory, or international political economy is essential as is an interest in military issues. A strong mathematical background is a plus. No foreign language skills required.)

G. **China Studies (Asia Program)**: Many experts and general observers now believe that the long-standing US policy of constructive engagement and hedging toward China has largely failed. As proof, they point to Beijing’s failure to significantly liberalize politically, to open up its economic markets sufficiently, and to adopt the norms and beliefs of the liberal international order. Instead, the argument goes, China is becoming more oppressive domestically, pursuing predatory economic policies overseas, threatening its neighbors, and trying to undermine the US and push it out of Asia. Do you agree and has US policy failed? (Mandarin Chinese reading skills a huge plus.)

H. **Japan Studies (Asia Program)**: 2018 has been a tumultuous year for diplomacy in Northeast Asia (especially involving the Korean Peninsula), even as security conditions remain largely unchanged for many countries in the region amid questions about the durability of the US alliance system. Japan in particular has been put into a difficult position by the Trump administration when it comes to North Korea policy, trade friction, and general demands by allies to pay more for US defense commitments. At the same time, Trump’s tougher China policies (e.g., trade, Taiwan, strategic rivalry) are something of a benefit for Tokyo, in that it helps to limit China’s regional power and opens up some diplomatic opportunities for Japan as it tries to improve Japan-China relations. How is the Abe administration adjusting to Trump’s foreign policy and alliance management, as it relates to key Japanese strategic interests of China, the Korean Peninsula, and a healthy rules-based international order? (Japanese reading skills required.)

I. **Economics (Asia Program)**: China’s economic rise has created tensions with the US. America is accusing China of unfair trade and foreign investment practices. But China sees its actions as necessary to become more technologically advanced to escape the middle income trap. What are merits of the respective arguments? (Mandarin Chinese reading skills a huge plus; strong background in economics essential.)

J. **Russia & Eurasia Program**: The US-Russia relationship has plummeted to unprecedented post-Cold War
lows. Can this downward trajectory be arrested? What are the key dangers in the current situation and how might the Trump Administration seek to prevent things from getting out of hand? (Excellent Russian reading skills required.)

K. Geoeconomics & Strategy Program): The US international role—involving foreign relations, defense, trade, aid, investment, and international economic policy—impacts Americans and non-Americans economically. Which constituencies in the United States or overseas derive the greatest economic benefits from it?
