

Sample List of Opportunities for Juniors

For more information about these and other opportunities, go to
<http://externalscholarships.lafayette.edu/scholarships> &
<https://www.bsu.edu/about/administrativeoffices/national-international/other>

To make an appointment to speak with Dean Goldberg, email her at
externalscholarships@lafayette.edu

This list is comprised of opportunities for which you either apply directly (however, we will provide you with feedback and assistance), as well as those that require application submission through the College.

Those that require Lafayette endorsement or nomination, are designated by an *.

Program	Information	Application Deadline * indicates campus deadline
Public Policy & International Affairs Summer Institute	No citizenship requirements. Check eligibility requirements for particular summer institutes. The PPIA Junior Summer Institutes are fully-funded, rigorous academic fellowship programs that provide training and financial support for graduate school and facilitate ongoing professional development. All JSIs include curriculum on economics, statistics, domestic/international policy issues, and leadership topics. Students should apply for as many of the 5 JSI as possible.	Early November
Critical Language Scholarship Program	Open to US citizens. Summer intensive language study (typically in host country, living with a host family): Languages: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Portuguese Punjabi, Russian, Swahili, Turkish and Urdu. Some languages require previous language study/knowledge which may be obtained by self-directed study by uptake of award.	Early-Mid November
Critical Language Scholarship SPARK Program	US citizenship required. Opportunity to study Russian, Chinese or Arabic throughout the academic year through online classes and activities. May complement language classes at Lafayette or can be studied independently of Lafayette offerings.	Mid November
Goldwater Scholarship	Eligibility: US citizens, permanent residents, and US nationals are eligible. Applicants must aspire to pursue a STEM research career in a natural science, mathematics or engineering.	*Mid December
